Click on File Menu, from the left panel. Select Options then click on Show Options. In the Options window: In the User Settings box, change the password to something unique. Open the Command Console window and type in the following: !autocad where: !autocad is the name of the active project. For example, if your active project is a drawing, the command will be: !autocad Drawing_01 Examples: In the drawings that are stored in a folder on your computer In the drawings that are stored on a server in the cloud. !autocad with no parameters This command starts Autocad, opens the default project, and starts a new drawing: !autocad The Seattle Seahawks picked up another small victory with the news that safety Kam Chancellor will be back for the team's Week 11 game at the Arizona Cardinals, per a report from Carroll A.I. Chancellor has been ruled out for the first four games of the season with a knee injury. The Seahawks only have three more home games remaining. However, they can clinch home field advantage for the conference playoffs with a win over the Cardinals. The Seahawks trail the Cardinals by one game in the battle for first place in the NFC West. Last season, Chancellor played in all 16 regular season games and started 14. He also had the first pick of the playoffs, as he returned an interception for a touchdown in the team's win over the Atlanta Falcons. Chancellor had a career-high 11 interceptions and 16 pass deflections in 2017. In 2016, he led the NFL with seven interceptions and finished second in the league in pass deflections. Chancellor was a Pro Bowl selection in 2016, and also won the Richard Sherman Most Valuable Player Award that season. The Seahawks have been without Chancellor since he tore his Achilles in the season opener. He missed the remainder of that game, and all of the Seahawks' next two games. Chancellor still had been a bright spot for the Seahawks early in 2017. He had an interception and a fumble recovery in the first two games of the season, and also a touchdown on a missed field goal return. Chancellor won the Richard Sherman Most Valuable Player Award for the second consecutive season in 2017. Rookie safety Quinton Jefferson was called up to the active roster

Flip Graphs and Flip Walls: Get the most out of your computer's integrated monitor. Flip graphs so the layout of your drawing appears to be on your desktop. Flip walls so that your drawings occupy only half of the screen, allowing the rest of your desktop to be used for other applications. (video: 1:43 min.) Web Apps: Use the apps on your mobile device or PC to add and change the layout of your drawing (video: 1:03 min.) Pairing and Serialization: Send and share your drawings with the same username and password over multiple platforms, even if you're using different computers and mobile devices. (video: 1:33 min.) CAD 2D Cloud BONUS: Now you can share your drawings over the web with CAD 2D Cloud for free.
